

100%
Cotton
Gauze

María[®]
•de Guadalajara•

2020-2021

María E. Lomelín B., Designer and Executive Director, Pioneer and creator of this trend.

María began creating back in 1982, designing and manufacturing her unique cotton-gauze clothing line, which had its inspiration in her own proposal and personal heritage, creating original designs, capturing an unique look for the Cosmopolitan woman, an often copied style by her competitors, but never equaled.

With a wrinkle appearance and beautiful colors, with a light but resistant texture, in a 100% cotton gauze fabric, it provides women with the best garment to satisfy their needs. María de Guadalajara reaches the heart of the national and international markets. María's creations do not necessarily seek to follow trends since each person is unique in seeking harmony, freedom and comfort.

Made for the women on the go!

I find very rewarding to have the opportunity of being the creator of a very peculiar style, which embodies casual elegance and sets apart by its uniqueness, quality, comfort and beauty, making it a very versatile line with relaxed sophistication.

Those who enjoy and adopt my style for themselves become a big part of my life!

María
